

The Nobel Prize For Physics will be announced shortly. You can watch it live on youtube. The video has been embedded for you in the post.

Just a quick fact: About 107 Nobels for Physics have been awarded since 1907.

The youngest guy to win the award was Lawrence Bragg, who won it at just 25 years, (cool aint it? don't feel low about yourself.)

The only person who has been awarded the Nobel Prize twice is John Bardeen.

Manas Sharma

I'm a physicist specializing in computational material science with a PhD in Physics from Friedrich-Schiller University Jena, Germany. I write efficient codes for simulating light-matter interactions at atomic scales. I like to develop Physics, DFT, and Machine Learning related apps and software from time to time. Can code in most of the popular languages. I like to share my knowledge in Physics and applications using this Blog and a YouTube channel.
