

Preparing for Delhi University Semester Exams is a pain in the ass. No one can tell what to expect. But what one can do is prepare oneself for anything. The best way to anticipate the questions, however, is to study the previous years papers. Another way in which you can prepare yourself is to solve the previous papers. What you can do is to try to complete the syllabus well before the exams and then improve your writing skills by completely solving the papers. This will teach you time management and will be a good exercise for the real thing. Here I have compiled some of the Question papers of Physics Honors.

I am a Physics Major myself.

Good Luck for your exams.

Manas Sharma

I'm a physicist specializing in computational material science with a PhD in Physics from Friedrich-Schiller University Jena, Germany. I write efficient codes for simulating light-matter interactions at atomic scales. I like to develop Physics, DFT, and Machine Learning related apps and software from time to time. Can code in most of the popular languages. I like to share my knowledge in Physics and applications using this Blog and a YouTube channel.
