

Here is the pdf version of the paper- Electromagnetic Theory for the year 2015 and fifth semester.
The paper was for the FYUP batch Physics Honours students.

Download Link—>: [Electromagnetic theory paper 2015 physics honor du.pdf](#) <—Click to download

The paper was held on 2 December 2015.

It was fairly tough and a little lengthy. Many of my friends said that most of the questions were straight away copy pasted from a book by the author, Satyaprakash.

Though, I hadn't used that particular book for preparation, I was able to answer almost all the questions. There were some tricky questions though which puzzled me.

I had used the book, Electrodynamics by D.J Griffiths for my preparation.

To be honest it is the best book that you will ever come across while studying Electromagnetic Theory.

Wish you Good Luck! for your exams. Don't forget to share it on facebook.

If you have any questions, post a comment and i will get back to you.

'Sharing is Caring'.

Manas Sharma

I'm a physicist specializing in computational material science with a PhD in Physics from Friedrich-Schiller University Jena, Germany. I write efficient codes for simulating light-matter interactions at atomic scales. I like to develop Physics, DFT, and Machine Learning related apps and software from time to time. Can code in most of the popular languages. I like to share my knowledge in Physics and applications using this Blog and a YouTube channel.
