

So I enrolled myself in the M.Sc Physics Programme of the University of Delhi this year(2016).

Needless to say it hasn't been an easy ride. The professors are good but the exams are just way too tough. Even getting 60% is a tough job.

But still to prepare yourself well for the exams I would STRONGLY suggest that you thoroughly go through the previous year question papers (that I am providing here) of all the subjects to get an idea about the questions format.

Here I have attached the Previous year question papers of Classical Mechanics which is taught in the First Semester. The files are in PDF format.

I'm a physicist specializing in computational material science with a PhD in Physics from Friedrich-Schiller University Jena, Germany. I write efficient codes for simulating light-matter interactions at

atomic scales. I like to develop Physics, DFT, and Machine Learning related apps and software from time to time. Can code in most of the popular languages. I like to share my knowledge in Physics and applications using this Blog and a YouTube channel.
