

I am a Physics student and a self-taught Web Developer, programmer and Guitarist. I have over 2 years of experience designing and developing websites. I strive to make each project unique and perfectly tailored for your vision and requirements.

If you want a website for your store/school/ a bakery or you just want a personal/family website, I can provide you all solutions and services.

I am available for hire for the following services:

Website Design, Specializing in WordPress Blogs

A basic WordPress package includes the following:

- a main page and other pages (such as "About," "Contact," etc)
- 10 design mock-ups to choose from
- up to 3 revisions after coding begins
- an *extensive* document with details on how to access and make changes to your site, all the necessary information needed to keep the site up and running, etc
- full email support for up to 60 days after the site goes live

Prices starting at \$400. (prices are negotiable)

À La Carte
